

QUICK GUIDE FOR AIR EXPORTS

General Objective: Explain in a fast and accurate way the basic steps for Air Imports. Finalizing the process with the transference to the Accounting Bridge of the files created on the module for the generation of statistics and accounting reports.

Basic Steps

1-Quotes	This is an optional step in case the customer needs an estimate for a shipment.
2-Bookings	During this step is entered the booking information and also generated the Shipment Reference number.
3-Loading Plan/Guide	Guide to load the Container.
4-Airwaybill Entry	Generation of the Airwaybills and its Printing Formats.
5- Manifests	Generates Manifests.
6-File Analysis Report	Generates a Report which allows the user to verify the billing and cost values before the transference.
7-Close File	Closes the files to be transferred to the Accounting Bridge.
8-Update to Acct Bridge	During this step are transferred to the Accounting Bridge the files previously closed.

Air Export – Modulo Workflow

1- Quotes

During this step it can be generated a freight forwarding quote from Origin to final destination. If the quote is approved by the Customer, the Awb would be updated with the information previously included by introducing the Quote #.

Workflow

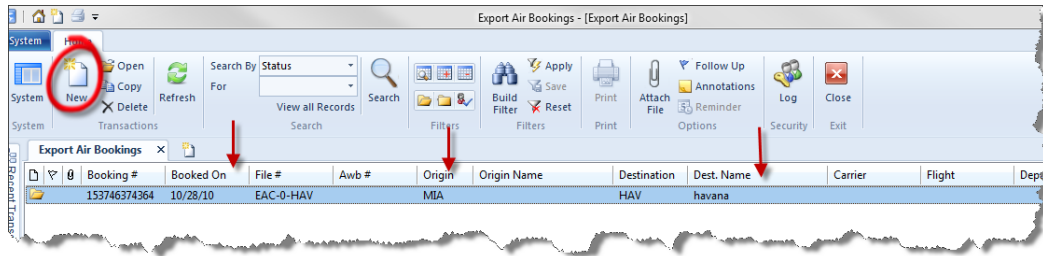

Process Steps

- Quotes
- Bookings
- Loading Plan/Guide
- Airwaybill Entry
- Manifesting
- File Analysis Report
- Close File
- Transfer to Acct Bridge

When this step is selected if it is not your first Air Export file in the system, will appear on the screen a list of all the files previously created which can be arranged in a ascending or descending order by clicking on the different tabs located on the top bar as shown bellow.

Window#2

The creation of files starts with the window#3 which will show at your screen after clicking on the New () icon located in the **Home Tab (Window#2)**. For a faster procedure only fill out the basic information in order to generate the File #. You may use the magnifying glass () to make searches, additions, deletions and updates.

Window#3

Export Air Booking— New Record ()

1-Booking#	Enter either the Booking # given by the Airline or you could add directly the Awb #.
2-File Number Type	Select from the drop down box if it is a direct shipment or consolidation .
3-File number	Based on the criteria selected on the previous tab, the system generates automatically the File #.
4-Awb#	You can type the Awb # for this shipment or you could select it from the Awb Inventory.
5-Origin/Dest	Origin/Destination Airports.
6-Carrier /Flight	Airline and Flight #.
7-Booking Agent	Name of the Booking Agent.
8-Agent	Information of your Agent at destination.
9-Departure/Arrival	Departure/Arrival dates.
10-Shipper	Name of the Shipper as appears on the Commercial Invoice. If there is more than one shipper can be added during the step # 3 Airwaybill Entry.
11-Consignee	Name of the person that is going to receive the shipment.
12-Print	Find this Icon within the Home bar; will allow you to print the Booking confirmation.
13-Save & Close	Save & close the information returning to window#2.
14-Closed - Exit	Closes window#3.

3 – Loading/ Plan Guide

During this section you will be able to create a Plan/ Guide in order to repack the shipment or load the container.

Window#4

Accounting Information

Cont. Window #6

Export Air Airwaybill

1-Cargo Details

New Cargo Detail will be added as was shown on the window above.

Cont. Window # 6

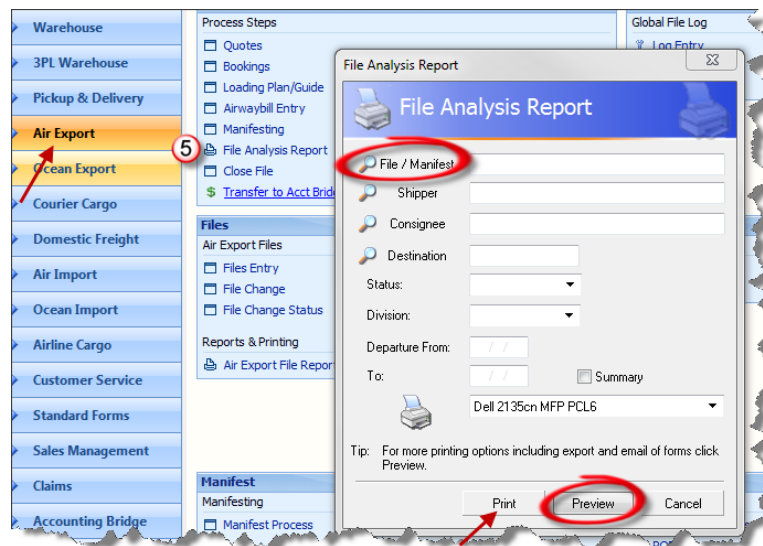

Export Air Airwaybill

1-Charges Details	After making a right click a second window will prompt on your screen where you will add the billing charges and costs.
2-Billing Code	With the help of the magnifying glass find the specific billing code you need to use.
3-Type	Select from the dropdown box if it is a Prepaid or Collect shipment.
4-Bill party	Responsible for payment (Shipper/Consignee/Other).
5- Billing Tab	Reflects the selling values. If under Bill Party is selected Other then you must add the Customer information with the help of the magnifying glass ( Search). Person or Agent responsible for payments.
6- Cost Tab	Cost Values. This section requires the information of the Vendor for the specific charge. You may use the help of the magnifying glass ( Search).
7-Comments for letter of credit.	In case the shipment requires a Letter of Credit the comments can be added within this space.
8-Invoice	This option will allow you to generate the Invoices
9-Print	By clicking this option you will be able to print the different forms and formats that can be generated from the Awb.
10- Labels	This option located within the Home bar will allow you to print Labels selecting the specific format in which you want to print it.
11- Save & Close	Saves the information added or edited in the Awb going back to Window # 5.

5- File Analysis Report

Window # 7

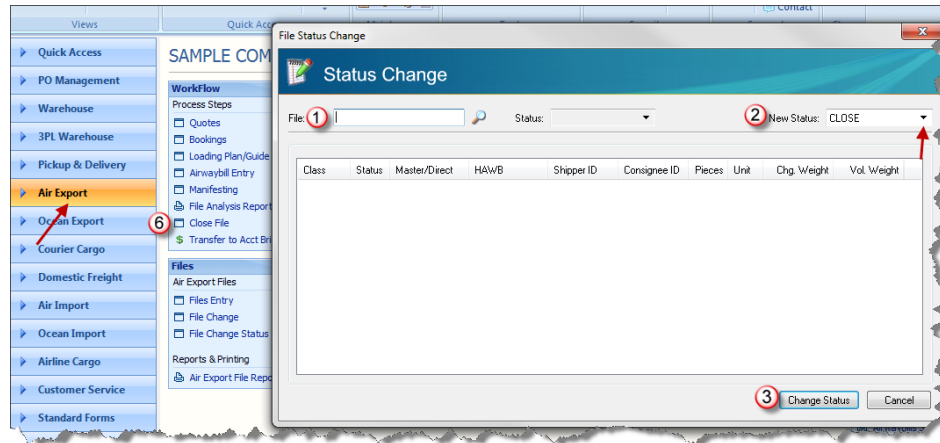

Through this step you will be able to select different transactions based on the criteria shown on the window above and verify the values before transferring the file to the Accounting Bridge, if there is any error you could fix it by going back to the step # 4.

6- Close File

Window # 8

1-File	Type or look up the file # with the help of the magnifying glass. After Tab over, the Awb(s) included within the file will be shown on the screen.
2-New Status	Select from the dropdown box the new status that will be assigned to the File, in order to transfer the transactions to the Accounting Bridge the status must be Closed .
3-Change Status	After the selection of the documents and the status by clicking here, this one will be automatically updated in the system.

7- Transfer to Accounting Bridge

This is the last step of the workflow of the **Air Export module**, during this section you will proceed to transfer the **File** previously closed to the Accounting Bridge. See below Window#9.

Window # 9
